As a business owner I didn't want a fine

At the time, last November, Dan Andrews was locking Vax-free people out, from 12yo up, from entering most businesses. I am the wife/mother in a 5 person household & was horrified by the rules & felt I needed to make the sacrifice of unwanted & uncertain injections so we had one person in our home who was able to access important things for the rest of my family.

Because corrupt governments made it impossible to go anywhere or do anything without having it done!

Because Daniel Andrews forced it on me.

Because I am not a stupid fear mongering dickhead anti vaxxer

Because I hate Australia now & the way the govt has divided the people & im going to live in Bali & hopefully never return whilst these hideous mandates & pedo protecting govt is in power!

Because I have a comprehensive understanding of science and in particular the health benefits of vaccines.

Because I was forced to!

Because my friends and acquaintances were having it

Because the Federal Govt said it wasn't compulsory then sat but and watched us being co-erced by Andrews. Stinks

Because vaccines dramatically work to reduce severe covid symptoms and also reduce spread of some variants

Because we are running our country like a Nazi camp with an experimental medical procedure.

Medical advice from doctor friend to reduce impact when i get covid  
My dad was sick in the UK and I was scared I wouldn't get to leave the country and get back to my kids.

My family business was fined \$10000 for me being unvaccinated and on the premises.

My friend got it and ended up in ICU so I thought there was less risk having a vaccine. Fortunately I had it early before all the government coercion, mandates starting happening so when they did it did not really affect me as I was already Vaccinated. I would have felt very different had I waited and then felt bullied by the government to have it.

My friend suffers long covid. While the vaccine won't stop me getting c19 I hope it will prevent it

My husband used emotional blackmail on me. We fought for a month because I didn't want it. He said he would leave if I didn't get it
